AGENDA

Noon

Lunch & Networking

12:30 to 1:45 pm

Seminar I

2:00 to 3:15

Seminar II

The Healthier Hospitals Initiative 2012 Milestone Report shows improved patient health and lowering hospital costs through sustainability efforts. This truly emphasizes the goal of sustainability as an effort not to burden, but to broaden processes to improve all of our existence and have a positive economic impact.

LOCATION

Indiana Wesleyan University
Indianapolis (North)
Education and Conference Center
3777 Priority Way South Drive
Indianapolis, IN 46240

Half-Day Workshop with Lunch

July 17, 2013 • Noon - 3:30 PM

presented by

Health Care Innovation 2013 is an afternoon workshop and networking lunch focusing on amazing results that have been achieved both in improved patient health and lowered hospital costs through simple, practical and sustainability based efforts.

SEMINAR I: Healthier Hospitals Initiative (HHI)

The Healthier Hospitals Initiative (HHI) is a coordinated initiative to implement a series of standardized and measurable environmental strategies that were carefully crafted for their critical importance and their achievability within health care organizations and their facilities.

Lauren Kleinman is an Outreach Specialist for the Healthier Hospitals Initiative (HHI), a free, three year initiative designed to accelerate the widespread use of proven sustainability practices throughout the health care sector for improved health of patients, staff, and the community. Previously, Lauren worked for The Ohio State University Wexner Medical Center and simultaneously completed her dual Masters degrees in Environment and Natural Resources/Public Policy.

SEMINAR II: How Non-Design Health Care Professionals Should Influence Building/Renovation Sustainability

Via the use of Case Studies, this seminar will provide the (Design) insider's perspective where Health Care Administrators and Clinicians can positively impact the outcome of a new building or renovation project.

Michael Berning, PE, CEM, LEED AP BD+C as Director of Sustainable Design, he is responsible for the strategic integration of sustainability principles across Heapy Engineering's markets and services. Previously, he led a Design Team focusing on Health Care and University projects. He also writes a regular column for EDC Magazine on Sustainability.

Joe Ferdelman, PE, HFDP, LEED AP BD+C, as Health Care Market Leader for Heapy Engineering, and with over 20 years of health care design experience, Joe provides strategic direction to project teams and Owners regarding "state-of-the-art" strategies for lean and efficient facility design.

Daric Hess, PE, LEED AP BD+C, using his 15 years of health care design experience, focuses on design strategies that contribute to positive patient-focused outcomes. He is responsible for the conceptual design and development of innovative engineering solutions for projects addressing the broad spectrum of facilities in the health care market.

SUPPORTING SPONSORS

AIA/HSW LUs, GBCI CEUs, PDHs and more to be available.
